

CHESNUT HINTS HIGHER RATES OF COMPENSATION

Speaks to Rotary Clubs of Bucks County At Perkasie

"RATES MUST GO UP"

Benefits Now Range From \$8 to \$20 per Week, He Says

By International News Service
PERKASIE, Dec. 10.—The State Administration today appeared to favor increase benefits for claimants of Workmen's Compensation, Occupational Disease and Unemployment Compensation benefits.

In a speech last night to the combined Rotary clubs of Bucks County, State Labor and Industry Secretary William H. Chesnut hinted Gov. James H. Duff will recommend approval of higher pay scales in his message to the General Assembly in 1949.

Chesnut spoke of his "recommended action to increase our jobless benefit rates" and said his statement embraced workmen's and occupational disease benefits.

He pointed out that the cost of living had increased and while he did not recommend any specific advance said "jobless benefit rates must go up also."

"There are at least fifteen states in which workers receive a higher rate of jobless benefits than is paid in Pennsylvania. Employers in these states pay no more unemployment compensation tax per dollar of payroll than you do and yet the unemployed worker in these states has more to spend for food and the necessities of life than the worker in our own state."

"There is no intent on my part to compare Pennsylvania unfavorably with any other state. I merely want to emphasize to you as Pennsylvania employers that you could have a greater return on your unemployment compensation tax dollar."

"My real purpose has been to show you how woefully inadequate is our present jobless benefit rate. We can't expect to maintain community solidarity if unemployed workers face poverty and want as soon as they are out of a job. I do not advocate anything beyond reason. I don't propose to liquidate the unemployment compensation trust fund by giving it away. I don't propose that the jobless benefit check should ever compete with wages earned at honest work. But I do most emphatically advocate the increase of our jobless benefit rate just as promptly as it can be done within the framework of the required legislation."

Unemployment compensation benefit in Pennsylvania range from \$8 to \$20 a week for a maximum of 24 weeks while occupational disease and Workmen's Compensation benefits are restricted to \$20 a week with a limit of \$10,000 for death or total disability.

"I advocate this increase in the hope of saving our unemployment compensation program from either collapse or nullification," Chesnut said.

"I want this program to be able to do the things for which it was designed. I want it to be the cushion that eases the blows of economic adversity for both employer and employee. I want it to be a strong force in preserving the solidarity of our community life."

"If we continue our jobless benefit rate at an inadequate level, the results are sure to be bad," he said. "If we raise it to the point where an unemployed worker may reasonably be expected to provide food for his family from his benefit check, then we have at least stabilized the situation. I ask no more than that."

Contracts for the structural, mechanical, electrical and ventilation work are soon to be awarded. Borough council intends to construct a 15-inch sewer extension from the intersection of East Broad and Franklin streets to the present plant before the proposed disposal unit is completed.

A SUMMARY OF THE NEWS

A jurisdictional battle between Congress and the Executive Department over the Communist spy investigation broke into the open yesterday.

While Henry Julian Wadleigh, a former State Department economist, refused on Constitutional grounds to tell the House Committee on Un-American Activities whether he had delivered secret Government documents for forwarding to a Soviet agent, President Truman said the committee was a dead agency, interested in headlines and not in prosecutions. He again branded the committee's inquiry a red-herring and said the Department of Justice was presenting evidence incompetently to a Federal Grand Jury. The Department said the committee was endangering convictions by its "premature and ill-advised" disclosures.

Among the new witnesses before the grand jury in this city was Robert E. Stripling, the committee's chief investigator.

After having discussed military needs with defense and budget officials President Truman was reported satisfied that his \$15,000,000,000 ceiling on military expenditures adequately protected national security.

A House group called for investigation of Communist activity by

Communists and their sympathizers were barred under a new constitution from holding office in the Transport Workers' Union.

The Economic Co-operation Administration rejected a French proposal to announce the later availability of \$1,000,000,000 in Marshall Plan counterpart funds to avoid new taxes and a possible political crisis in France. Premier Quetleu, however, included these funds in presenting his fiscal program.

In an effort to speed action on Palestine by the United Nations General Assembly, the United States, Britain and Canada will strip all controversial provisions from their pending motions. A draft constitution for Israel envisages a democratic state.

U. S. Court May Rule On Sale of 2 Bridges

TRENTON, Dec. 10.—Attorneys for the New York bonding and banking firms involved in the \$12,000,000 Burlington county bridge deal moved yesterday to shift Attorney General Walter D. Van Riper's suit to recover the bridges for New Jersey to the Federal Court.

Contending a federal question was raised when the state claimed a right to acquire the Tacony-Palmyra and Burlington-Bristol bridges under federal statutes of 1926 and 1927, the firm of Pitney, Hardin, Ward and Brennan, attorneys for the Chemical Bank and Trust Co., New York, and B. J. Van Ingen & Co., managers of the syndicate which handled the bridge commission bonds, served a petition on Van Riper to remove the case from the Superior Court, which was to have held a hearing in Camden today.

Unless the Federal Court, on application of Van Riper, sends the case back to the state court, Van Riper will not be able to proceed with his application for the appointment of a receiver for the two bridges.

The state seeks to void the sale of the spans on the grounds it has a lien on them under the legislative acts which sanctioned their construction, and that it could have acquired them for \$4,999,999 under condemnation proceedings.

BURGESS APPEALS FOR SAFE CHRISTMAS

Asks Residents Here To Strive For An Accident-Free Holiday

URGES CO-OPERATION

Burgess Jacob C. Schmidt today called upon the people of Bristol to join the National Safety Council and 130 other national co-operating organizations to make Christmas an accident-free holiday celebration this year.

"Christmas time is not only the season to be merry," the Burgess said, "it is the season to be wary as well. The extra holiday hazards demand extra caution in meeting and overcoming them."

"We can have a safe and happy Christmas if every one of us makes up his mind to celebrate safely. A little extra caution, common sense and courtesy wrapped up in one big package will bring the gift of an accident-free holiday to all of us."

"Remember that if you and I look upon safety during the holiday celebration as our own personal responsibility to ourselves and our families, if our neighbors down the block make safety their responsibility, and if the people on the next street do likewise, it will be an easy job for all of us in Bristol to make this year's Christmas celebration the safest and merriest we have ever had."

Rev. Paul Gleichman Tells of "Life in India"

A former missionary to India, and now the pastor of the Zion Lutheran Church, here, the Rev. Paul Gleichman, spoke on "Life in India" when he addressed Bristol Rotarians in St. James Parish House yesterday afternoon.

"Living in India is a question of adapting, adjusting and changing yourself to many problems not experienced elsewhere," Rev. Gleichman said.

"The climate is something to be reckoned with, and health hazards are great. The political and social outlook of the Indian is difficult, and over-population of the country is a problem. And the illiteracy of the native presents another obstacle," the speaker pointed out.

"The climate in India is really warm. It is a relentless and monotonous hot sun that is relieved only for a short period during the rainy season. Even the natives suffer from sun stroke. The weather is a definite factor in the backwardness of the country."

"Malaria is one of the greatest health hazards in this country, with the mortality as high as 75 per cent in some sections. Dysentery, cholera and smallpox also are common and present great hazards."

"Life in the rural sections of India is very crude. There is little transportation, no phones, no electric, no modern sanitation. All these things make living in India a problem."

"From a social viewpoint the people are very suppressed. They have a feeling of inferiority. There is also a certain antipathy and hostility towards the nationals of some other countries."

"The problem of over-population can best be expressed by pointing out that one out of every five persons in the world is an Indian."

"Illiteracy is a tremendous problem, since 88 per cent of the population can neither read nor write," the speaker concluded.

Following his talk Rev. Gleichman answered a number of questions put to him by club members. One guest, Edward Barnsley, Newtown, was present at the meeting. President Warren Woodruff was in charge of the program.

PLEASING PICTURE

Two pre-winter storms that
caused considerable damage and
brought livestock losses in several
sections have struck the South-
west wheat empire, but they left
much on the credit side of the
agricultural situation.

Precipitation which came in the
form of snow and rain has given
the wheat crop sufficient moisture
to put it through the winter in
good condition, has obviated the
danger of immediate wind damage,
and has practically eliminated the
possibility of dust storms. This
is in direct contrast with the
situation a year ago, when dry
weather endangered the crop.

All of Oklahoma and Kansas
have been thoroughly soaked. The
wheat is up to a good stand and
there is a surplus of pasture.
Thousands of head of cattle and
sheep are grazing in the wheat
fields of both states, simplifying
the feed problem. Had this con-
dition been reversed, making it
necessary to dry feed, the cost
would have been burdensome.

The harvest is months away,
but indications are there will be
another profitable wheat crop.
Wheat is the foundation of the
prosperity which a large segment
of American agriculture has en-
joyed for years. With a continu-
ing demand for bread throughout
the world the price of wheat will
not slump to the point that the
crop will be unprofitable.

GENERAL'S SOUP

Recipes dreamed up by a man
are, generally speaking, garbled
memories of dishes his mother
cooked, or what a man told him
on the club car, or stray pieces of
wisdom voiced by a hunting
guide. Usually the culinary effort
remains in the bosom of the fam-
ily. But when General Eisen-
hower comes forth with a formula
for vegetable soup, as he has just
done, gastronomic circles sit up
and take notice.

The recipe for the general's
soup, as published in a Columbia
University cookbook, reflects pa-
tience and thoroughness. It is a
wonderful concoction, based on a
stock of beef, mutton and chicken.
He adds potatoes (diced), green
beans, celery, onions, carrots, tur-
nips, corn, chopped raw cabbage
and a quart of canned tomatoes.
All well and good.

Most cooks will agree with the
general that the green vegetables
should go in at the last possible
moment to preserve identity and
crispness, and most epicures like
the food broth thin. As a final
touch, the general says, cut up a
few nasturtium stems, boil them
separately, and add a tablespoon
of them to the soup.
Well, that did it. The Vege-
tarian Society of New York will
ballot its membership to decide
whether nasturtiums are flowers
or vegetables. Maxine of the
Hotel Algonquin says that adding
nasturtiums is the same as adding
the stems of small green onions.
Webster's dictionary states that
nasturtiums are smooth herbs
containing a pungent juice, and
that the seeds and flowers are
used in salads and pickles.

But most persons will continue
to demand their vegetable soup
without nasturtiums.

SPORTSMEN'S BRIEFS

By JOE ELMERSON

No meeting... as has been the custom for the last several years, there will be no meeting of the Bristol Fish & Game Protective Association in December. The regular date would have been next Tuesday, December 14th. The next meeting of the club will be held on January 11th, 1949. This will be the big, annual meeting of the club, with awarding of fishing contest prizes, election of officers, and other special attractions.

Windup tomorrow... at five o'clock tomorrow afternoon the last major 1948 hunting season will be ended with the close of the deer season. It, as has been the case with other 1948 seasons, has produced varying results. Fewer local hunters, on the average, were successful this year as compared with 1947. The northeastern deer woods were filled with hunters the first week. Some stayed longer, but most concluded their activities at the end of the first week. And a goodly number of them came home minus venison.

Largest to date is Al Purvin's 7-point buck which weighed 175 pounds. H. Morrell, another local hunter, bagged a 9-pointer in the Poconos. Five bucks were taken the first week of the season in Bucks County in the Jericho Mountain section, according to LeRoy Stackhouse, Deputy Warden.

Last week this column reported the first deer as that of Homer Hobbs, taken on a Maine hunting expedition. That report drew an interesting letter from another local hunter, Al Moser, 217 Main street, Hulmeville. Al clipped the report of the first deer reported in this column and sent it along with the following note:

"Small fry. The nephew and I took one 8-point and one 6-point off of Moose Creek 40 minutes after we left cabin. In the South Princeton area (of Maine) you can get deer with popguns. Go in from Sally Creek and get the real deer."

Increase... in 1946 there were 325 black bear killed in Pennsylvania. Last year the figure jumped to 569 bears. No reports available for 1948 at the present time.

What's your reaction... Irvin Scheffey, one of Bristol's finest trapshooters for many years (now retired), handed me this memorandum which he recently received from Henry N. Marsh, Manager, Smokeless Powder Division, Hercules Powder Company, Wilmington, Delaware:

"If you want to know what brand of powder you're shooting act now. Dear Fellow Shooters:

"Under the Simplification procedure established by the Department of Commerce it is proposed to eliminate the powder brand marking now regularly shown on all 12 and 20 gauge trap and skeet loads.

"This proposal aims to take away your freedom to choose the powder which you prefer to shoot. If this proposal is approved the label on the shell box will not show you that you are shooting Red Dot or some other powder of your choice.

"The ATA has gone on record as opposed to this move, and we feel that most trap and skeet shooters also object. But this is not enough! We need your individual vote to convince the Bureau of Standards that his move is objectionable to you personally as a shooter." Signed, Henry N. Marsh.

HIGH SCHOOL GRID TARS SELECTED ON LOWER BUCKS TEAM

Three members of Coach Harry McClister's Bristol Warriors were picked on the All-Lower Bucks county football team for 1948. The team was picked by the coaches, players and sports writers and announced last night after all votes were tabulated.

"Jim" Sottile, stellar Bristol end, as the only player to receive the unanimous votes of all those who picked teams. Sottile was also picked by the players of various school teams which picked all-players teams.

The other pair of Warriors who made the first team were Bud Pearson who played a fine guard position all season and "Bill" Moll, hard hitting backfield star. Moll is a senior and has another year of football ahead of him. Sottile and Pearson are due to graduate in June. Moll had 8 first place votes and Pearson, six.

Bristol also placed two players on the second team: Val Bielecki, who played center, and "Al" Daniel, whose field generalship and ball carrying stood out in the Warriors' games. Bielecki carried the brunt of the center position all season, playing both offensive and defensive. Bielecki missed out being on the first team by one vote. Why Hudson Beauty is more than "skin-deep"

The modern design for '49

The New Hudson—the first and only car you step down into—achieves true streamlining and today's lowest silhouette as the natural result of a basically new design principle available in no other type of automobile!

Every time your eyes linger on a New Hudson, you are admiring beauty as genuine as nature at her glorious best!

For this stunning streamliner has fresh styling that begins deep inside the car with a recessed floor which is the key to the "step-down" design—the exciting idea that opens up new opportunities for genuinely beautiful lines!

Yes, for years it has been widely known that the lower a car can be built, the more beautiful it will be, the better it will ride and handle.

But whenever men have sought to create the ideal in low-built motor cars, without lowering the interior floor, they've had to keep top lines high to preserve inside head room, or reduce inside roominess to get top lines down—an unsatisfactory compromise in either case.

And even with compromises, no car has ever matched the gloriously low silhouette Hudson brings you today!

This is because Hudson—and Hudson alone—has a recessed floor in an exclusive, all steel Monobuilt body-and-frame* which makes it possible to build the lowest car on the highway—just five feet from ground to top—but with more head room than in any mass-produced car built today!

The exciting, more than skin-deep beauty of the New Hudson is the natural result of this basic "step-down" construction, which is so right it frees the designer of the need for makeshifts in styling.**

We cordially invite you to see and drive the New Hudson. You'll quickly sense that this car is so far ahead it's a protected investment in motor car value.

*Trade-mark and patents pending.

**The many advantages in Hudson's "step-down" design are explained in a booklet available at all Hudson dealers.

Associates Honor deGanahl At A Farewell Dinner

NEWTOWN, Dec. 10.—Carl de Ganahl, formerly director of engineering and research at Kaiser Fleetwings Inc., Bristol, was honored Monday night at a farewell dinner given for him by his associates at Kaiser Fleetwings, Inc. Mr. de Ganahl resigned his position with the company to go into business for himself on an undisclosed project.

The dinner was held in the Clouds Room of the White Hall hotel, which was decorated with an aviation motif throughout. Mr. de Ganahl was presented with a copper tray with the signatures of his associates engraved upon it as a parting gift. A likeness of the "Sea Bird," a stainless steel amphibian that Mr. de Ganahl designed and built, was also engraved on the tray.

Mr. de Ganahl was the original founder of Kaiser Fleetwings, Inc., coming to Bristol in 1934. The company was then known as Fleetwings, Inc., and was engaged in the manufacture of amphibious aircraft, and in developing and perfecting the use of stainless steel for aircraft. The "Sea Bird" one of the first all stainless steel airplanes ever built, was built here in 1936. Later, in the early years of the war, the company built wings and control surfaces for many well-known aircraft manufacturers, as well as for the army and navy. The company was sold to the Kaiser interests in 1943 and has since become known as Kaiser Fleetwings, Inc.

Those present at the dinner were: Ralph Collett, Elmer Hann, William Schutte, Dan O'Donoghue, William Schirmer, A. McGonigal, I. E. Steele, J. Woods, H. Basch, J. Coffin, C. Grant, D. Jones, B. Tupper, S. D. Mackey, J. Mazzeo, G. Berry, C. Quinn, R. Bucher, O. Speck, J. Black, G. Raymond, W. Hellbrun, N. Nolini, I. Romberger, J. Scheppe, Burke, P. Titus, R. McKinney, J. Volfhart, W. Guerber, all of Kaiser Fleetwings, Inc.

Today's Quiet Moment

By the Rev. William F. Hakes
pastor
First Baptist Church

Jesus said, "I am He" (Jn. 4:26). There is no reason for looking elsewhere for the Christ the Son of the living God. He has met every requirement of God. Jesus came and lived a spotless life, for even His enemies said, "This is a righteous man." He performed miracles, which while they cannot be explained, neither can they be explained away. He taught as no other man taught, even without the formal schooling his contemporaries had. Then He went the bitter way to the cross, carrying the weight of the world's sin, that by His death and faith in Him, we might be saved eternally.

The evening was concluded with the singing of carols. A handbag was given to Mrs. Harry Hinman, Sr. Those attending: Mrs. Clarence Hollenback, Mrs. John Wischer, Mrs. Mary Heaton, Miss Margaret Kelly, Mrs. Harry Sutton, Jr., Mrs. Irvin Scheffey, Jr., Mrs. Wilmer Dyer, Mrs. Charles Brodie, Mrs. Milton Miller, Jr., Mrs. Wilson Black, Mrs. William Claus, Jr., Mrs. Howard Fennimore, Mrs. Joseph Elbersen, Mrs. Jennie Dietrick, Bristol; Mrs. Walter Rittler, Mrs. Robert Robinson, Edgely; Mrs. Raymond Robinson, Newport Terrace; Mrs. Jacob Townsend, Pennadel; Mrs. Morris Hentzell, Philadelphia. Guests of the club was the Noble Grand of Lily Lodge, Mrs.

BRISTOL HIGH SCHOOL BASKETBALL TEAM OPENS ITS SEASON TONIGHT WITH BORDENTOWN HIGH HERE

The Bristol High Warriors will make their 1948 debut this evening on the home court as they play host to the Bordentown High School in both varsity and junior varsity games. Opening tap-off is scheduled for 7:30 o'clock.

The eagerness of Coach Jerry Bloom have had but two weeks of practice in handling the ball but prior to that some of the boys were limbering up on the track to loosen their muscles for the court game. The football players did not have a chance to handle the sphere until after the Thanksgiving holiday.

Bloom's second year as mentor of the basketball team sees six of last season's veterans returning to the squad with one year of experience in the coach's pattern system of basketball. At the start of last season Coach Bloom predicted that the fans of this section would see plenty of scoring once the players were accustomed to the pattern playing of the court game. He did not expect to do much in the way of victories as he realized that his style of basketball playing was something new here.

Bloom was right in his prediction of high scoring as game after game, the Warriors racked up high points. In fact two of his players, "Johnny" Pindar and "Jimmy" Sottile scored 30 points with Sottile having 445 and Pindar 385. But his team went beyond his expectations and won 18 of their 23 games and at one time had a streak of 7 straight. The quintet got as far as the semi-finals in the district P.I.A.A. tournament.

Pindar graduated last June and his loss will be felt in the scoring column. Coach Bloom also lost Dave Morrell, a starting guard, and John Bailey. The latter did not see much action but was used mostly for his height on tap-offs.

Of last season's group returning are: Sottile, "Ham" Konefal, Val Bielecki, "Jim" Marshall, "Ducky" DeLong, and Bob Bowen. Others who have moved up to the first team are: Frankie Barbetta, Joe Pindar, Frank Rich, Vic Cauti, Bob Konefal, Marty Braam, and Paige Stewart. Most of these youngsters saw action with Coach Harry McClister's junior varsity team of last year. Pindar is a brother of "Johnny" Pindar.

It is most likely that Coach Bloom will start Sottile and Konefal as forwards, DeLong as the pivot man, with Marshall and Bielecki at the guard positions. Bloom has already named Sottile as his captain for the season's opener.

The lanky DeLong is expected to

give Bristol the edge on most tap-offs and also retrieve the ball from the boards. With one year of varsity basketball behind him, "Ducky" and his height will be a big asset to the Warriors.

Konefal, who is one inch shorter than DeLong's 6' 3", will be an improved player and is counted on to score many field goals. Both Bielecki and Marshall handled themselves well last season as defensive players. Bob Bowen will see plenty of action before the night is over. Bowen is getting to be a dead shot from the left side of the court and will be used as the first replacement.

Those who followed the junior varsity records of last season will know that the "kids" moving up to the varsity can handle the ball. The JV's won 19 and lost 4 last season and at one time McClister's lads had a winning streak of 17 straight games.

Bordentown is new on the local's schedule, not having played the Bristol team last year. Tuesday night, Bristol meets Pennsbury in a Lower Bucks League game on the home floor and next Friday, the Alumni will be the opposing team. Before the school closes for the Christmas holiday, Upper Merion will come here.
